

1st CUELC Programming Competition 2008

August 2008
In this issue:

**1st CUELC
Programming
Competition 2008**

**Visit of professors
and students from
Cairo, Egypt will
visit Germany**

The 1st CUELC Programming Competition has been started on July, 15th to offer students from Cairo University as well as RWTH Aachen University to win cool prizes and also enhance their programming skills at the same time. The challenge is to program their own version of the famous game - mastermind. Therefore, students teamed up in groups of three, trying to meet the requirements that have been set up. We are very looking forward on seeing the results of the different competing teams.

Cairo meets Aachen and Evry

From August, 23rd - 30th, Prof. Dr. Samir Ibrahim Shaheen, Prof. Dr. Nevin Mahmoud Darwish and Assoc. Prof. Dr. Magda Bahaa Edldin Fayek and the students Menna Tallah Hamza Mohammed Ibrahim, Shady Ayman Hamed Emera, Mohamad Hesham Mohamad ELBasioony Fadl, Eman Adel Abd Elhamid El Ayat and Mustafa Kamal Ismail Ahmed will pay a visit to their partners in Evry, France (23-26 August) and Aachen/ Cologne, Germany (27-30 August).

During German part of visit they will be invited in Cologne Forschungkolleg (<http://www.fk-427.de/>) to get an impression of its structure and its research results. Several scholars from the Kolleg are invited to attend the meeting in order to share their knowledge in intercultural virtual e-learning systems.

The second day will be passed in RWTH Aachen. The workshop „Challenges for Intercultural Virtual Campus Systems“ has a numerous interesting presentations that include the following:

- Virtual Intercultural Campus: CUELC after 1 year (Dr. Klamma)
- Visit of the „Virtual Cave“ in the Computing Centre (G. Toubekis)
- L2 P Room at RWTH Aachen (CIL Aachen, Dr. Rohde)
- Storytelling and educational games as new interfaces to learning materials (RWTH Aachen University Students)
- LMS vs. PLE driven approach to learning (Mohammad Ridwan Agustawan)
- Intercultural access to learning materials – moderated discussions of students (Moderation: Zinayida Petrushyna)

We kindly invite researchers and students to visit the workshop.
